MEMORANDUM FOR: [REDACTED] 25X1

SUBJECT : Tempo Publications Index, Technical Military Planning Operations, Santa Barbara, California, (RM 58IMP-65)

1. The reference document seems to contain several items of possible interest to the Agency. Attached are twenty-one (21) items which might be of most interest. The Director of PIC has a copy of the index document, and I suggest that anyone interest in seeing the whole list contact him to borrow the index or seek through him an additional copy. (It might be that another copy exist in the Agency - if so I am not familiar with it.)

2. In a note from Tempo Manager to Art Lundahl, he states that TM items are not circulated outside Tempo, but that inquiries are in order inasmuch as information can often be made available in some other form.
